Senior Technology Executive

Quality Assurance | Enterprise Architecture | Technology | Financial Services

SUMMARY

Change agent for fast-paced and global enterprises with 20+ years of building technology organizations that impact both the bottom and top line. I drive innovation across core business and technology through strong leadership, collaboration, process-driven operational excellence, and modern platforms.

CORE STRENGTHS

- Business Leader: Runs IT like a profit center and aligns execution to strategy.
- Innovator: Creates cultures that improve continuously through technology.
- Mentor and Strategist: Builds high-performing teams and succession depth.
- Relationship Builder: Navigates complex global organizations to deliver outcomes.

SELECTED IMPACT

- Delivered 20% (USD 19MM per year) efficiency gains within 12 months for a QA organization supporting a USD 560MM project portfolio.
- Built first cloud infrastructure for a Fortune 200 infrastructure group and converted 80%+ of data center workloads to virtualization.
- Led global infrastructure redesign for a major airline subsidiary, delivering next-generation IT and +5MM EUR in annual savings.
- Consolidated 400+ data centers and 1600 internet gateways at a Fortune 100 manufacturing conglomerate.

EXPERIENCE

USAA - San Antonio, TX (2007-Present)

Financial services company with annual turnover of USD 34B. Provides a full line of financial products including banking and insurance.

SVP, CIO Shared Services and Infrastructure, Feb 2022-Present

- Placeholder: Add scope, organization size, budget, and key initiatives.
- Placeholder: Add top business outcomes and modernization milestones.
- Placeholder: Add operating model and reliability improvements.

Vice President - Technology Architecture, 2015-2022

Internally recruited to the Chief Technology Office as a succession candidate for the Chief Technology Officer. Led the technology architecture organization. With 100+ technical architects and 10 executive-level fellows, I drove enterprise technology strategy.

Vice President - CIO (Interim), P&C Company, 2017

Served as the Chief Information Officer, Property and Casualty USAA, for the USD 20B organization central to USAA's mission. Led all aspects of technology with a 1200+ person organization and a technology budget of ~USD 700M annually. Oversaw initiation of a four-year transformation representing ~USD 1B in investment to overhaul P&C systems.

Assistant Vice President - Property and Casualty IT, 2014-2015

Led the Property and Casualty IT team through a transition to a more business-focused IT organization. Primary IT interface for the President of the Property and Casualty company and leadership team.

Assistant Vice President - Quality Assurance, 2011-2014

Recruited to right-size the Testing Center of Excellence organization. On a portfolio of over USD 750MM in software development, the TCOE had grown stale and inefficient, representing 25%+ of total development time. Drove process and innovation improvements to deliver the best quality in USAA IT history while improving productivity.

- Reduced TCOE expense by over USD 9MM and 200 FTEs while the software development portfolio grew by over USD 100MM.
- Re-engaged the TCOE customer base and defined a partnership with development

to become more efficient when developing enterprise software.

- Negotiated multi-million USD software contracts, expanded labor pools to Mexico and new parts of India.

Assistant Vice President - Distributed Systems and Systems Management, 2009-2011

Consolidated distributed platforms into one organization. Increased virtualization from ~40% to 80%+ while maintaining uptime during rapid growth.

- Expanded key technologies by 350%+ in capacity with no impact to product pricing for the current budget year.

Assistant Vice President - Availability Assurance, 2007-2009

Honeywell - Phoenix, AZ (2004-2007)

- Director, Standards and Architecture
- Manager, Infrastructure Applications

LSG Sky Chefs - Dallas, TX (2003-2004)

- Global Director, Standards and Architecture

Accenture (Former Andersen Consulting) - Dallas, TX (2000-2003)

- Senior Technical Consultant

EDUCATION

- BS in Economics, Texas A&M University (College Station)
